

JingleBand

Your JingleBand consists of 4 sleigh bells attached to a colorful cloth band. During the Roman Empire, sleigh bells were mounted on the reins of a Knight's horse to indicate wealth as well as for decoration and show. A good luck charm, these bells quickly became a warning signal to other drivers and pedestrians that a sleigh was near.

Hold your JingleBand in your hand or attach it around your wrist; it can be played many ways. Hold it in the air and shake it. Tap rhythms by holding it in one hand and hitting the fist of that hand with your other fist. You can also imitate a horse and sleigh by tapping the JingleBand at a speed that reminds you of a sleigh ride.
