

Woodstock Chimes® Rings Out and Rolls Out New Bells
*Expands Popular Woodstock Temple Bells® Series,
adds new Woodstock Dream Bell™ and Woodstock Sparkle Bell™ Series*

SHOKAN, N.Y., October 2, 2017 – Woodstock Chimes, the leading manufacturer of musically tuned windchimes and high-quality gifts, continues to lead the industry in innovative product style and design development. The company recently expanded its bell offerings by adding a turquoise-accented design to its popular collection of Woodstock Temple Bells, shown on the top, and launching two new bell series:

Woodstock Dream Bells, shown in the center - featuring a filigree windcatcher in either a butterfly or dragonfly design

Woodstock Sparkle Bells, shown on the bottom - featuring one silver bell available with either blue, green or clear crystal accents

“When we introduced bells to our line in 1995, they were a natural extension of our tuned windchime business. They quickly became customer favorites and remain enormously popular today,” said Garry Kvistad, founder and owner of Woodstock Chimes and a GRAMMY® Award-winning musician. “Bells have long played a role in towns and cities around the world for social, religious, meditative and historical functions. At Woodstock Chimes, we try to not only respect the social significance of the instrument, but offer a variety of bell designs in a range of price points that are suitable for a whole host of décors.”

The newest addition to the best-selling Woodstock Temple Bells series is the Trio, Terra (TB3TR), with three copper-plated steel bells in different sizes, which produce different tones. The design features turquoise accents, similar to that of the Woodstock Turquoise Chime™ series, also a longtime best seller for the company. It measures 21 inches in overall length, comes in a gift box and retails for \$30.

The Woodstock Dream Bells series features brushed brass bells and delicately rendered windcatchers, available in two designs. The Butterfly (DBB) has a curved bowl-shaped bell, while the Dragonfly (DBD) has a coned-shaped bell. Each features a beautiful laser-cut image of its namesake along with nature motifs on the brushed brass filigree windcatcher. Both measure 14 inches in overall length, come ready to give in gift boxes and retail for \$25.

Each Woodstock Sparkle Bell has one nickel-plated steel bell, but the bold, eye-catching crystal accents are what make this series a real standout. The crystals are available in either Blue (SPB), Green (SPG) or Ice (SPI). A small, faceted crystal ball serves as the clapper while a larger faceted round crystal makes a captivating windcatcher. Cascades of smaller crystals add to the sparkle that gives these bells their name. All measure 14 inches in overall length, come in gift boxes and retail for \$20.

These only scratch the surface of Woodstock Chimes' bell offerings. To see and hear all the bells and all Woodstock Chimes, please visit WoodstockChimes.com.
