

**Woodstock Agate Chimes are Top Selling New Product at Winter Markets**  
*Available in five colors, including a stunning display package option*

**SHOKAN, N.Y., February 21, 2017** – The new Woodstock Agate Chime™ series, available in five colorful styles, is one of the top sellers of the winter 2017 gift shows from Woodstock Chimes®, a leading manufacturer of musically tuned windchimes, garden décor and high-quality gifts. Woodstock Agate Chimes feature genuine agate, a stone discovered by the naturalist Theophrastus between the 4<sup>th</sup> and 3<sup>rd</sup> centuries BC, which forms over long periods of time in nodules left in volcanic rock. The jewelry-quality stones used in these chimes are sliced thin to reveal their ancient, captivating beauty, and then are dyed to give them a vibrant color.

“Agates are said to bring balance to our emotional, physical and intellectual state, promoting stability and strength,” said Garry Kvistad, founder and owner of Woodstock Chimes, and a GRAMMY® Award-winning musician. “We combined these bright, captivating stones with our popular toned rods at an affordable price point for an appealing addition to our décor offerings.”

The chimes feature black finish ash wood, six silver rods and the colorful stone accents. Since these are genuine agates, no two are alike – the size and hue of each stone will vary. The chimes measure 18 inches in overall length and come in a gift box. They wholesale for \$10. The five Woodstock Agate Chime styles are (left to right): Blue (WAGBL), Brown (WAGBR), Green (WAGG), Red (WAGR) and Purple (WAGU).

Additionally, the Agate Chimes Package (WAGPKG) makes a vibrant, colorful display. Available for \$200, it includes four of each of the five styles, plus a FREE Fiddlehead Two-Tier Hanging Display - Silver.
