Woodstock Chimes Removable Windcatchers
Offer Memories for Many Occasions

Allows Woodstock Chimes to be Customized by the Consumer

SHOKAN, N.Y., March 21, 2017 – Sometimes a song can bring you back to a certain place or time or summon a memory you shared with a special person. Woodstock Chimes®, a leading manufacturer of musically tuned windchimes, garden décor and high-quality gifts, is inviting customers to experience this feeling through their windchimes. Woodstock Chimes continues to lead the industry and now includes removable windcatchers on over 60 chimes, allowing the line to be included amongst the growing personalization category. The windcatcher is the paddle that hangs at the bottom of the chime. The feature is included on most chimes with overall lengths over 17 inches, including most of the immensely popular Amazing Grace, Gregorian and Encore® Collection chimes. Once the windcatcher is removed, customers can take it to a local specialist to have a personalized message or image printed, silk-screened or engraved on it. The windcatcher then easily reattaches to the chime.

“The removable windcatcher feature allows Woodstock Chimes to be offered in two growing gift industry categories: personalized products and the inspirational and memorial market,” said Garry Kvistad, founder and owner of Woodstock Chimes and a GRAMMY® Award-winning musician. “With the most tunings and price points of any chime company, Woodstock Chimes offers a robust selection of chimes for these categories, including our three Woodstock Memorial Chimes, which include a small keepsake urn. Nearly all our chimes in this category now offer the removable windcatcher feature so customers can enjoy their Woodstock Chime with extra special meaning.” Woodstock Chimes customers often express how much comfort they get from chimes given to them after the death of a loved one. One customer recently wrote, “The chimes made me feel that my loved ones were always there, never gone, safe at home.”

Consumers can easily identify which Woodstock Chimes have removable windcatchers. An additional hangtag describing the special feature and some personalization possibilities is included on each chime, in addition to the traditional hangtag describing the background of the specific chime. Also, consumers will find simple instructions included in the gift box, detailing how to remove and reattach the windcatcher for a successful personalization project.
